

The brightest minds in finance

Financial Risk Management

Viewed from a unique lens

Risk management and control have emerged as crucial functions in the financial industry, demanding highly specialized skills that are vital to the success of financial institutions. It is the Great Financial Crisis of 2007-2009 that, given its systemic dimension, acted as a new wake-up call. And the recent bank failures (in 2023) are again reinforcing the need for professionals with the required technical expertise. The 3-day **Financial Risk Management** program aims to help the participants to develop essential financial risk management skills in a consistent way, with unique insights.

Note: this program can function as a (first) practical step in the preparation of exams related to globally recognized designations, such as the Financial Risk Manager (FRM) charter – for the FRM Part 1 exam.

How you will benefit

- Explore the Core of Risk Management: Immerse into risk management's heart, unveiling in particular strategic risk intricacies. Armed with integrated risk management fundamentals, craft adapted and adaptable frameworks
- Unlock Key Risk Indicator Potency: Experience the power of Key Risk Indicators (KRIs), demystifying the dynamic of risk changes. Navigate challenges with strategic precision using these hidden keys
- Embark on Risk-Return Odyssey: Thrillingly delve into risk-return dynamics, navigating financial landscapes adeptly. Uncover the symbiotic relationship that fuels decision-making success.
- Get a sound understanding of practical quantitative analysis: it is about what is necessary
- Futures/Forwards and options (and beyond) demystified Patrick's way with his step-by-step approach: witness complex concepts unravel into simplicity, giving you the tools to navigate these instruments with easiness

The expert

Meet the brightest minds in finance. Learn from the world's leading finance academics and experienced corporate executives.

Patrick Oberhaensli is a financial expert with over 30 years' experience in banking and finance. He is the Founder and CEO

of his own finance related service company, EVOLIDS FINANCE LLC. Patrick has been teaching finance courses to professionals in various specialized domains, such as the preparation to the CFA and CAIA exams, since 2009. Patrick was among the very first to receive his CAIA diploma back in 2003 and has been organizing very successful CAIA events in Zurich for a number of years.

Prior to his teaching career, Patrick was responsible for the development of the Swiss institutional business at a global Dutch asset manager for over five years, allowing the successful growth of a very well recognized franchise. Earlier in his career, he spent 13 years at a large Swiss bank in various senior positions in internal audit, investment banking and institutional sales and advisory. In investment banking, Patrick was developer and sales for interest rates and equity and hedge fund hybrid structured products. He is also the creator of the Reverse Convertible structure.

Throughout his career, Patrick has acquired extensive cross-asset class expertise in multiple areas including structured products, quantitative strategies, valuation techniques and alternative investments. Patrick holds a Master's degree from the Swiss Federal Institute of Technology and is also a CFA, CAIA, CMT, FRM, PRM, ACI Diploma and ERP charter holder. More recently, he obtained the CFA Institute's Certificate in ESG Investing.

Enrolling & practical information
